

NOORUDDIN SHAIKH

Full Stack Developer | Mumbai, India

hi@noorudd.in | noorudd.in | github.com/noorudd-in | linkedin.com/in/nooruddin-shaikh

EDUCATION

M H Saboo Siddik College of Engineering

Bachelor of Engineering in Electronics & Telecommunication

Mumbai, Maharashtra

Aug. 2018 – May 2022

EXPERIENCE

Wipro Limited

Developer L1 (Frontend)

March 2023 – Present

Mumbai, Maharashtra

- Maintained comprehensive application using ReactJS, Context API, GraphQL, React Query, Tealium, etc and implemented complex business logic and functionality.
- Collaborated with team and cross-team to develop several internal tools to handle various testing environments, including DEV, UAT, IT, PERF, PENTEST, PREPROD, EMP, etc
- Resolved CSS bugs, minimized unnecessary API calls, optimized rendering to enhance application performance and collaborated with cross-functional teams to ensure consistent and responsive UI across various devices.
- Improved test coverage by an average of 20% weekly using React Testing Library and Jest, enhancing code reliability and maintainability.

INeuron.ai

Machine Learning Intern

Remote

Aug 2021 – Sep 2021

- Applied statistical analysis, deep learning and machine learning methods to large data sets for data exploration, data interpolation, feature engineering, bias correction and prediction.
- Evaluated and analyzed the data set to achieve the highest accuracy for the model through A/B testing and Hyper-parameter tuning.
- Maintained High Level Document, Low Level Document, Wireframe and Report.

PROJECTS

HabiTech | *ReactJS, Context API, Tailwind, Framer Motion, Axios*

May 2024

- A goal and habit tracker with an integrated planner engaged with gamification elements like health, coins and badges to boost user productivity along with activity tracking.
- Offered 20+ features, advance settings, sounds & vibration, 50+ backgrounds, 10+ themes, lock & unlock, import & export, smart suggestions, activity feed, advanced sorting and much more.
- Implemented trend charts and detailed reports along with Eisenhower matrix for strategic planning and analysis.

Movie Memo | *NextJS, TypeScript, Zustand, Axios, ShadCDN*

April 2024

- Developed a movie sharing app enabling users to manage and share their viewed and watch list movies or shows.
- Implemented advanced searching, sorting and filtering based on multiple parameters. Users can also add custom rating with custom judging parameters.
- Implemented pagination and explore page for trending, upcoming and top rated movies or shows.

Advanced Tic Tac Toe | *ReactJS, Redux, NodeJS, Express, Socket.io, Nodemon*

January 2024

- Developed an advanced version of Tic Tac Toe with two-player and three-player modes, supporting 3x3, 4x4 and 5x5 grids, and featuring emoji support for customizable game symbols.
- Unique advance mode where no user will tie the game ensuring definite winner always.
- Ability to play with AI for solo game or create unlimited unique rooms for real-time online game-play with friends.

ACHIEVEMENTS

- Received LinkedIn Top Programming Voice badge and recognised as a top 4% quality contributors.
- Written 10+ high quality blog articles on various topics such as Technology, Finance and Life.
- Cleared Python Level 1 Qualification conducted by Cambridge Certification Authority

SKILLS

Languages: JavaScript, Typescript, HTML, CSS, Python, L^AT_EX

Frameworks: ReactJS, Node.js, GraphQL, Redux, Zustand, React Query, Astro, Jest, Wordpress

Databases & Tools: MySQL, MongoDB, Docker, Git, AWS, VPS, CPanel

Data Skills: Pandas, NumPy, Matplotlib, Scikit-learn, Jupyter notebook, MATLAB, ML Algorithms
